Full Stack Developer

vladislavkucncz@gmail.com | github.com/d1nexl | t.me/d1nexl | Ukraine / Czech Republic

PROFILE

Passionate Full Stack Developer with 1+ year of commercial experience building modern web applications from scratch. Specialised in React / Next.js frontends paired with Node.js and Supabase backends. Self-taught and highly motivated — delivered 5+ real-world products for clients across Europe, on time and within budget. Comfortable working remotely and across time zones.

EXPERIENCE

Full Stack Developer — Freelance

2026 — Present

- Built and launched bilingual job platform Robota-CZ (Next.js + Supabase + PostgreSQL) connecting Ukrainian workers with Czech employers.
- Developed Zarplata Tracker — personal salary and finance tracker with charts and budget analytics (React + Node.js + MongoDB).
- Created DokladFlow — document workflow automation dashboard for accountants (Next.js + Supabase + SQL).
- Handled full product lifecycle: UI/UX design in Figma, frontend, backend APIs, database schema, deployment on Vercel.
- Maintained client communication, gathered requirements, and delivered projects remotely across EU.
